MEHZ! Full Version Download

Objects on the computer desktop are too hard to measure and analyze if we don't use a proper measure tool. With MEHZ! you can easily measure, and tell what is the minimum, maximum, and the average dimension of any shape on your desktop. You can even measure and analyze your own pictures! The MEHZ! interface is easy to understand and use: Step 1: Select a measurement tool Step 2: Choose an object on the desktop Step 3: Measure and tell MEHZ! allows you to measure objects on your desktop and organize them into a database. MEHZ! then lets you view this database by drag-n-drop. Features: • Measure almost any object on the desktop (Windows and GTK) • Up to 50 measurements per object • Measure the object absolute position and size • Measure and analyze the object image • Calculate the object average size • Export measurements as image or PDF file • Save measurements into your database • Automatically analyze and organize them • Filtering by size or previewing objects MEHZ! Settings: • Automatically detect and measure objects on the desktop • Select from different measurement tools • Select to show or not the item's ID • Show or hide MEHZ! toolbar (see screen shot) • Show or hide MEHZ! Preview window • Show or hide MEHZ! grid (see screen shot) • Show or hide MEHZ! toolbar • Show or hide MEHZ! legend • Measure objects on scrollable area • Show or hide MEHZ! preview window • Change size of MEHZ! footer when dragged out • Change size of MEHZ! tooltip • Disable temporary toolbar • Change shape of the MEHZ! footer • Change color of MEHZ! footer • Enable/disable MEHZ! legend • Enable/disable MEHZ! preview • Enable/disable MEHZ! toolbar • Show or hide MEHZ! toolbar • Measure a color • Measure a GtkStyle • Measure a window • Measure an image • Measure using GET_MEASURE • Export measurements as a pdf or image • Display a picture in the preview window • Export a picture as a pdf • Preload a picture so that it fits within the MEHZ! preview window • Save measurements

What's New in the MEHZ!?

MEHZ! measures browser windows, images, borders, and objects on your desktop. Drag a box around the target object and a pop up window is opened. It lists the size, position, and the name of the object. Click on the object name or leave it empty to mark the box with the object's dimensions in the same window. You can even export the image of the box to the clipboard! Additional features: MEHZ! allows you to calculate the area of a selected object and its dimensions. Tuesday, February 26, 2016 The very first thing I need to tell you about this week's giveaway, is that I haven't taken any photos of the products I received in this campaign yet. I hate to do this to you all, but it was so exciting getting those packages and I was still on my honeymoon at the time. Now I'm back home and I need to sort through and open the packages and take photos of the products, but I just hadn't done that yet, so I apologize to you all. Because of that, I'm going to be doing something a little different with this giveaway this week. If you've seen this post previously, you'll remember that it was my special Valentine's Day post. This week I am going to have a special Valentine's Day post featuring a super sweet giveaway for you all. I received a package from Bath & Body Works last week and I just had to look through it and see what was inside. It was everything perfect for this week's Valentine's Day giveaway. I love their Love Affair line of bath products and I especially love their red scented products. So I was so excited to find out that Bath & Body Works included a sweet little tin full of a lovely red perfume and a bag of their red hydrating body wash so that I could do this giveaway with them. Now what I have to tell you about Bath & Body Works, they do some really great fragrances. They have so many wonderful scents and I really enjoyed sniffing through their Love Affair body and perfume line. There are certain scents that I just kind of resonate with and I found that I just plain loved them. This week's giveaway winner will get to try out one of their favorite scents, along with a gift from Bath & Body Works as well. Now some of you have already received the products in this campaign and if you want to enter, just do a post
