(magazine) Torque was
a Spanish independent

rock music magazine
published between
1997 and 2014. It was
dedicated to rock
music and dedicated
to less-known, indie
rock bands from all
over the world.
Torque played a

significant role in the Spanish alternative and indie music scene during the 1990s and 2000s. It was regarded as one of the most prestigious Spanish rock magazines. In

2009, Spanish
musician and producer
Enrique Bunbury
launched a website,
Torque.com, which
aggregated
information and news
about the magazine,
as well as the latest

articles and
information about the
rock music scene in
Spain and the
worldwide indie music
scene. History In
1996, Soraya Montiel,
an advertising
copywriter and

journalist for a marketing agency, and Pablo Torres, a music journalist, published the first issue of Torque, which lasted six issues. This magazine reported on indie bands in Spain

and worldwide.
Torque's main
objective was to
inform readers about
some of the less
known and lesser
known bands in the
Spanish and
international indie

music scene. In 1999,

2006 Screamer is a
completely new text
processing program.
The basic function of

Screamer is to read
and tag text
(unambiguously) while
preserving as much of
the original text as
possible. The reason
Screamer does this is
because we believe
that the ability to

read text the right way up, with all punctuation, and all markings of commas, dashes, dots, etc, is one of the most important features of human reading ability. It would be

so much easier if we didn't have to make these decisions for ourselves. Screamer is also a very simple text processor. All it needs is a document (file) and a tag (kern) and a GUI.

I would call this a
"KERN2GUI", or
application. I am
hoping to release it
publicly, but it is
currently only
available from my own
website (If you are
thinking of tagging

and processing text,
read carefully, and
if possible download
and try Screamer. It
may change your life.
Thank you very much
in advance for any
feedback you may
give. 2007 ! [img 1]
