At the 2006 census, its population was 131, in 28 families. References Category:Populated places in Khorramshahr CountyA "New Night" in the Heart of the City Last week, the Columbus City Council voted to give the issue of a "New Night" in the arts to the City of Columbus, and it's been unanimously approved by Mayor Andrew Ginther. Last Friday, I found myself at the Department of Administration along with a number of other volunteers (including Steve Lindsay, arts director at the Columbus Orchestra) taking part in a citizen engagement meeting about the arts and the "New Night". Citizen engagement meetings are a vital tool in the city's ability to move forward with a community conversation about the future of arts, music and sports in the heart of the city. It's happening through a series of meetings facilitated by former Department of Parks and Recreation Executive Director Doug Kenrick, who has experienced a similar citizen engagement process within his role in Jefferson County. During Friday's meeting, the citizens of Columbus came out in force to share their thoughts and concerns about the arts in Columbus. Afterward, the Department of Administration came back with a plan for moving the conversation forward. In addition to a few minor changes, it approved another round of meetings to take place this summer in the following neighborhoods: North End Chillicothe Road corridor area Renaissance Near East on area Old Clifton area Capital South Near East Side The meetings will be open to the public and people are encouraged to attend if they wish to continue the conversation. Topics that will be discussed during the meetings include: How do we go about getting residents engaged in this community conversation? How do we continue getting people involved in the arts 82138339de
