Install MEF extension without Windows Management Framework I was trying to install MEF extension using Nuget Package Manager Console on Azure OS. But unfortunately it is not working. My OS is Windows Server 2012 R2 and I am installing Microsoft Azure Service Bus Client. PM> install-package Microsoft.Azure.ServiceBus.Client.3.0.2 As a result it takes me to: But I need to install MEF extension which is a different one. Please suggest any alternative ways to install MEF extension on Azure OS. A: It depends on the type of OS. For Azure OS you need to download WCF Data Services and install Service Bus Client in order to utilize Azure Service Bus client libraries. To download the client library, click on "Show All" on the Azure portal. Then you can download the Microsoft Azure Service Bus Client for.NET from the "Version" and "Operating System" sections. Q: Make contract ether the return value of a function I'm trying to think of a way to easily construct a contract that returns the

---

ether it holds. Ether isn't just held in the contract's storage.

The ether is actually held in an Ether-Wallet address. (I couldn't find a proper term for this) So if the code looks like this:

```
function make_contract() public { /* Do some construct
work, create a contract and return it */ return new
SomeContract(); } contract SomeContract { address[] public
wallets; function addWallet(address wallet) public {
wallets.push(wallet); } function returnEther() public view { if
(wallets.length > 0) { // withdraw
```
