What's New in the?

Power Gif Optimizer is the Ultimate solution for optimizing your animated images. All the images on your site will be analyzed and optimized in a click. Gif images are the most popular HTML5 animations on the web, and they are used to make them more attractive and user-friendly. However, when you optimize them with Power Gif Optimizer, they will be more compact and much faster, which means less phone or computer freezes. The conventional method to optimize images involves the use of a web-browser, which is a great, but also a very time-consuming, solution. Power Gif Optimizer can be installed on the server in a matter of minutes and thus enable real-time GIF optimization while the images are being uploaded. No extra step is needed, with no bloatware application. Just import the files and let the tool do its work. GIF animation, after all, is also an HTTP-based file, which means that they could be compressed and optimized even if you are behind a HTTP server. Otherwise, if you are using a proxy server, be sure to adjust the proxy settings. These files can be found in any web server, not only in the IIS.htaccess files, classic-web.config, can be placed in any root directory of the server, for example, one of the folders and files: css, js, images, php, etc. Yes, Power Gif Optimizer actually is working fine. However, I purchased it in May 2011, which made the current version 6.0.2. It has been quite a while since I have used it. So, I would appreciate any documentation that outlines the features & functionality. VIXEN - 2007-08-12 01:34 PM Hi, This software seems to be not working on live websites that have custom settings that I don't want to meddle with, i.e., no proxy & the header is a proprietary script I don't want to tamper with. Is there a way around this? joel hailey - 2011-06-06 09:52 PM thanks for sharing the video but can u show the program that i use and how exactly i use it? thanks JoshMonette - 2011-06-07 09:41 PM Hi! Is it possible to batch optimize GIF? (I have hundreds of GIFs.) Dan - 2011-07
