Detect and delete files and directories which have duplicate. It allows you to list duplicates in a GUI view, and then you can delete them from the list. You can also preview duplicates and delete them. Show detailed information about duplicates. Filter duplicates by file size, and speed by hiding zero-byte files. You can get rid of duplicates including files with hardlinks. In addition, you can set to ignore duplicate folders when detecting duplicates. The main window allows you to select any folder and run a scan for duplicates. Note: You can also quickly preview the contents of the folders. The duplicates of each type such as.txt,.jpg and so on will be displayed

in a list in the main window. Double-click the duplicates to delete them from the list. Download PassFab Duplicate File Deleter How to Crack PassFab Duplicate File Deleter 5.0.4.0 & Serial Keygen Download & Install PassFab Duplicate File Deleter 5.0.4.0 with Crack Unzip & Copy the “PassFab_Crack.zip” Into “PassFab_Crack_5.0.4.0” folder. Start the Application and it will start a Full Scan of your system in “Your_Favourite” directory. Once the Scan has completed, the application will display a list of file duplicates that have been found. Select the Duplicate files you want to delete from the list. Click “Delete” to delete the files. You will receive a message that the action has been completed successfully. Select the

duplicate from the list to view the detailed information about the files. After the start up procedure you will get a welcome screen to access the features. First, in the Options Screen, you can set various parameters which include the time it will take to delete the duplicates and the disk space that you want to allocate to this operation. The “Sort” tab of this screen allows you to choose how the duplicates will be sorted as they appear on the screen. The options include being sorted alphabetically, chronologically or by size. The “Advanced” tab allows you to enable hidden or system files to be excluded from the scan. Use the 

What's New in the PassFab Duplicate File Deleter?
