### Tableau

A well-designed and customizable dashboard that allows users to view various Macros as part of the dashboard on Mac OSX or Windows platforms. MACRO Description: A dashboard that allows users to create, edit and publish Macros. Macros can include public links to other Dashboards, reports, data tables and other Macros in My.Cascade. More macros can be added to My.Cascade using the Dashboard menu or the '+' icon in the upper right corner of the dashboard. Macros can also be dragged and dropped from My.Cascade onto other Dashboards or reports. Security: Dashboard viewers do not have any privileges on the Dashboards they view; they only have the ability to view the Dashboards. If a Dashboard is shared with a limited audience, only the specified viewers are able to view that Dashboard. If a Dashboard is private, only the creator of the Dashboard can view it. Dashboards are only shared with other Macros and datasets that are selected for sharing within the Dashboard. Plugins: Currently Dashboard viewers are limited to viewing Dashboards without any plugins. Selection Options: The filters tab is the only selection option available on the Dashboard as well as Macro Pages and Public URLs. Public URLs: A public URL is a link to a dataset or a report that is not visible in My.Cascade, or a dataset or report that is visible but not shared. Filters Tab: Users can filter Dashboards, Macro Pages, and
