Visual FoxPro is an updated version of Microsoft's programming source . FoxPro 2010 Visual FoxPro 2010, which was released in July 2010, is the first beta release of Visual FoxPro. New developments in VFP are integrated, which could give a more professional look to VFP. New features include: Tagged Properties: Property sets are now listed in the VFP workspace as a Task folder. Users can open the properties of items and quickly switch between the Tags. Similar to the ability to tag or browse multiple versions of a file in Windows Explorer. Unified Preferences: Unify all user, application, tool, and language preferences within a single system. Reduces development complexity and increases productivity. Roving Windows and VFP Integration: Maximize information and minimize mouse and keystrokes. Keep information in focus and uninterrupted. Rovine windows are now customizable according to the size and preferences of the users. VFP 2010 is available free for download with a 30 day trial of use. Updates to VFP 2010 can be downloaded and installed for free. The Visual FoxPro 2013 Lineage (Codename 82138339de
