However, an analysis of the U.S. foreclosure data does not lend support for such a possibility. "The numbers suggest a deceleration in foreclosures and a leveling off of the crisis," says a report issued by the U.S. Treasury Department. The report analyzes the numbers in the national mortgage foreclosure database. It covers the first nine months of 2008 and includes about 7,000 U.S. counties. The report says: "Total foreclosures nationwide declined 8.7 percent year-over-year and reached their lowest level since the start of the year. In the most severe foreclosures, where the bank forecloses on the property and resells the home to a third-party, there was a 6.3 percent increase in the first nine months of 2008 compared with the same period in 2007. This subgroup accounted for 15.

NeoTweak XP is an advanced tool for optimizing Microsoft Windows XP, which has its main focus on the UI aspect of the system. It can be used to activate or deactivate a variety of interface elements and tweaks, like modifying the title bar of Internet Explorer, Outlook Express, Start Menu and windows border or changing the cursor blink rate. It also enables users to unclutter the desktop by removing shortcut arrows, rename the Recycle Bin, enable smooth scrolling or put the current Windows version on the desktop and so on. The 'Desktop Tweaks' section offers additional system tweaks, like the thumbnail cache, auto-expanding trees, using the classic search or launching directories in separate processes. An extensive 'Explorer Tweaks' module includes almost everything related to the Windows Explorer. Here users will find a wide variety of context menu commands that can be enabled, including those for 'Copy To', 'Move To', 'Explore From Here', 'Command Prompt Here' or 'Open With'. NeoTweak XP is a neat application with a friendly user interface and it is certainly worth a try. #2 7/5/08 10:29 PM Tuneup Utilities Tuneup Utilities Tuneup Utilities is a handy software to repair registry problems on Windows.
