I've had this for a while and it's not really effective at all. I don't think it's the tool itself, but the company that sold me it. It's really a piece of junk, including their updates that don't even work 100% of the time. It always fails to export correct files to the "correct" folder. I tried to cut my losses and revert my data and I think that was the reason why the updates stopped working. They must have changed something during the 91bb86ccfa

This started out as a comment on the thread title, but it was too long. All I know is, I used to be in most shows on tv recently. I quit because shows were getting cancelled due to excessive costs. I guess if I were one of those Disney Directors, they wouldn't cancel a TV show because it ran its course. I think they just want their employees to be happy. I wouldn't want to be a director of a Disney show because it would be a very stressful job, especially if you wanted your
