Powerful and Easy-to-Use eLearning Interactions Makers of Raptivity Suite recommend teachers create a new interaction or edit an already existing one in order to put it to use in one of their assignments or classes. Creating a new interaction is done by choosing a template from the collection of Raptivity Suite's ready-to-use interactions or by choosing one from several pre-existing templates available. Easy-to-Use Interactions Each interaction is divided into three main components:

Its model, a visualization of your students' interaction, and a means to test their understanding, all of which is user-friendly enough for a teacher to create a new interaction in a matter of minutes. Powerful & Comprehensive Creation Tools Makers of Raptivity Suite suggest teachers create a new interaction or edit an already existing one in order to put it to use in one of their assignments or classes. It is done by choosing a template from the collection of Raptivity Suite's ready-to-use interactions or by choosing one from several pre-existing

templates available. However, if you wish to create your own interaction, the program provides you with a wide range of tools to get the job done. Quality & Easy-to-Use Template All your interaction are created with professionalism, and when it comes to managing your interactions, you will enjoy one of the program's benefits: the clean and organized look of the interface and the extensive collection of templates available. Quality & Customized All your interactions can be created with the best possible quality (as good as it can be). However, it also allows

you to customize them, improving the ones you already have or creating your own from scratch. Cheap & Easy to Use All your interactions can be created with the best possible quality (as good as it can be).

However, it also allows you to customize them, improving the ones you already have or creating your own from scratch. Save Time & Effort Raptivity Suite's interface is user-friendly, allowing you to customize interactions without the need to write a single line of code, which is very efficient. Raptivity Suite is a comprehensive and reliable

software solution aimed at teachers who wish to create interactive lessons and encourage students to take part in all courses, by allowing them to have fun while learning. The program is fairly complex, requiring quite a lengthy installation procedure, during which you will need to pay attention and provide the proper confirmations when prompted.
