Big Clock Crack + With Product Key

Big Clock is an update to my old program, Small Clock (clc), that came out in 2004 and became quite popular. It includes a lot more features, one of which is that you can now tell time in 24, 12 and 6-hour format. It works well with Windows Vista and higher, and I just updated it to take advantage of Windows 8. Big Clock works fine with Windows 7, but doesn't work at all with Windows 8. While it does include a high-contrast look, this layout was done to make the day part and the night part easier to read. You can now switch from 12 hour to 24 hour format, night to day, or day to night with just a few clicks, easily changing your settings without having to open many dialog boxes. Features: -24, 12, and 6-hour format -Show hours, minute, second, and AM/PM indicator with optional AM/PM format -Show second and AM/PM indicator without minutes -Show day of week indicator -Time-of-day font size changes -Week number indicator -Different day and night colors -24 hour format has a 24-hour indicator -Use small clock as a night clock -Use big clock as a normal clock -Option to show number of hours at the end of 24 hour format -Option to change how seconds are shown -Option to turn off seconds -Option to turn off am/pm indicator -Option to switch between showing AM/PM and showing seconds -Option to switch between 24 hour and 12 hour format -In the night time view, option to show minutes (You'll have to right-click the night time icon for this option) -In the night time view, option to show seconds -In the night time view, option to show AM/PM indicator -One icon for the day and one for the night in the night time view -In the night time view, order of the days: Sunday (first), Monday, Tuesday, etc. -Option to hide the day of the week and the time of the day -Option to hide the year and the day of the week -Option to include the week number in the day of the week indicator -Option to switch back and forth between 12-hour format and 24-hour format in the day time view -Option to switch back and forth between 12-hour format and 24-hour format in the night time
